ENVIRONMENTAL CONSULTANTS

SCIENTIFICALLY TAILORED
CONSULTANCY FOR
ENVIRONMENTAL REGULATION
AND COMPLIANCE

The treatment and recycling of 'waste' materials, using exemptions and deployments under environmental permitting regulations, is ever changing due to the introduction of new and revised legislation. At 4R Group we use our extensive knowledge of technical and regulatory issues to help our clients 'keep legal'. This means understanding the physical and chemical composition of materials, the implications of treatment processes and appreciation of how and where materials may be beneficially applied to land.

We provide a range of services including:

- Chemical and microbiological analysis and interpretation
- Pollution risk assessments
- Recycling audits from "cradle to grave"
- Composting advice
- Risk analysis
- Land evaluation and survey prior to by-product recycling
- Land restoration advice and planning
- Expert witness work including legal assistance (solicitor and QC)
- Planning advice
- Resource quality and treatment options
- Environmental compliance assistance
- Permit, deployment and exemption applications

4R ENVIRONMENTAL CONSULTANTS
