

# Paper Crumble

RECYCLING WASTES AND  
BY PRODUCTS FOR  
USE IN AGRICULTURE  
AND LAND RESTORATION

**Paper crumble from 4R Group is a proven cost-effective animal bedding product aimed at improving animal health, comfort and the environmentally-sustainable end use of slurries and manures.**

Designed to reduce the cost of using traditional bedding products, such as straw and sawdust, while offering greater absorptive properties and control of pathogens and bacteria, paper crumble is easy to handle and poses no risk to human or animal health.

Paper crumble is a paper-based bedding material that offers the benefit of enhancing the nutrient profile and soil conditioning characteristics associated with the applications of manures and slurries on agricultural land.

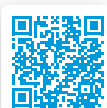

## Benefits of using 4R Group paper crumble:

- Reduces mastitis cell counts and controls other pathogens
- Helps reduce foot problems
- Readily accepted by livestock
- Cheaper than straw/sawdust/shavings
- Fits in with existing manure/slurry systems
- Similar moisture absorbency as wood shavings and straw
- Available all year round
- Bulk delivery
